Dedication

Technical Resin Packaging is dedicated to fulfilling your requirements for quality adhesives, sealants, and coatings. We offer customized and private label packaging of single and multi-component products. For over twenty years we have partnered with customers worldwide to provide cost effective packaging of single and dual cartridges, syringes, Semkit® packages, plastic and metal collapsible squeeze tubes, bottles, cans, jars and a variety of other containers. It would be our pleasure to partner with you to ensure you receive the highest customer service, quality materials and packaging your application requires.

Support

Our first priority is to support our customers with the best quality and service available in our industry. It is our trained staff's responsibility to offer technical assistance and provide on-time delivery of high quality products and custom packaging, in order to strengthen the productivity of our customers. We can provide you with products such as industrial specialty adhesives, sealants, encapsulating epoxies and casting resins. Whatever your project, our knowledgeable adhesive, sealant and coating specialists can assist you in finding the optimum product for your application, and we can package it in the method that meets your requirements. Whether you wish us to package your product, or one recommended by us, we will be glad to assist you. It would be our pleasure to provide you with a custom sample for your specific application.

Integrity

Professionalism and excellence in quality have earned Technical Resin Packaging a solid reputation in the adhesive and packaging industry. The principles of integrity, fairness and honesty form the foundation of Technical Resin Packaging, and we respect the confidentiality of the information our customers and manufacturers share with us. Our friendly customer service representatives and highly skilled quality oriented staff are trained to give full attention to providing you with an immaculate package that meets the exact specifications your application requires.
